# Thesis

In 2026, our social media strategy will operate as an always-on system that supports programs, adapts to shifting timelines, and consistently delivers value to our audience; all without requiring reinvention every month

## Program-Agnostic Approach

This is the foundation that never changes, regardless of what programs exist in each quarter/month

2026 Social Media Strategy

# THE STRATEGY SPINE

Every post should ladder up to at least one of these:

 **Rule: If a post can't be tagged to all three, cut it.**

This will allow programs to plug into the system rather than redefine it.

## ○ BUSINESS OBJECTIVE

- Brand awareness
- Thought leadership/authority
- Demand/lead generation
- Client/customer retention
- Talent attraction

## • CONTENT PILLAR

- Educate
- Thought leadership
- Advocacy
- Engage
- Recruiting

## • BUYER STAGE

- Awareness
- Consideration
- Decision
- Retention/Loyalty

2026 Social Media Strategy

# ALWAYS-ON VS. PROGRAM- DRIVEN CONTENT

## 60-70% = ALWAYS-ON CONTENT

**This content exists with or without programs and stabilizes the feed**

- If all programs disappeared tomorrow, what would we still post?
- This becomes our monthly planning backbone
- Examples include
  - Industry POVs/Thought Leadership
  - Educational carousels/guides
  - Short-form video explainers/how-tos
  - Memes/relatability posts
  - Executive insights
  - Blog promotion
  - Cultural/advocacy posts
  - Client highlights
  - Hiring updates

## 30-40% = PROGRAM-DRIVEN CONTENT

**Programs overlay, not replace, the strategy.**

Programs known as of 12/16/25:

- AI Services Launch (Q1)
- Burder Bearer (Q1)
- Powered by Impact (Q1)
- Borrow formats from always-on
- Temporarily adjust emphasis (more lead-gen, more video, etc.)
- Never require a new strategy doc

# 03

## Program Intake Framework

Instead of “what’s the plan for this program?”, when a program is ready to activate on social, it answers the following questions...

2026 Social Media Strategy

# DOES THE PROGRAM BELONG ON SOCIAL?

 This ensures programs fit into the social system without hijacking it

## Program Brief (1 Pager)

- Primary Goal
  - Awareness/Leads/Engagement/Retention
- Primary Audience
  - Persona(s) + stage
- Primary KPI
  - Sessions, shares, sign-ups, watch time, etc.
- Content Weighting
  - % education, thought leadership, advocacy, etc.
- Hero assets(s)
  - Webinar, report, checklist, event, announcement, etc.
- Shelf life
  - 2 weeks/1 month/quarter/evergreen

## 04

## Modular Planning

This is how the monthly plans stay flexible

2026 Social Media Strategy

# CORE POST TYPES (REUSABLE YEAR-ROUND)

These *never* change, only the topic does

## ○ **EXAMPLES**

- POV Post/Thought leadership micro-blog/vlog
- Carousel explainer
- Short-form video
- Meme/cultural moment
- Quote graphic
- Blog push
- Soft CTA educational post
- Hiring graphics

## ○ **EACH POST TYPE SHOULD BE:**

- Mapped to 1-2 pillars
- Have a clear KPI/goal
- Different CTA levels
  - No CTA
  - Soft
  - Conversion/Hard

2026 Social Media Strategy

# MONTHLY PLANNING QUESTIONS

Monthly planning = mix & emphasis, not reinvention

**Instead of “what are we posting this month” ask...**

What programs are live this month?

Which pillar(s) need emphasis based on business goals?

What's our ratio?

EX: 40%  
educate | 25%  
TL | 20%  
engage | etc.

What content already exists we can repurpose?

# THE SOCIAL CHANNEL ECOSYSTEM

Here is how each channel supports the social strategy and system...

- 📌 Not every program belongs on everywhere
- 📌 Each platform has a job, not just content
- 📌 Not every post deserves cross-posting

| CHANNEL   | PRIMARY PURPOSE                                              | CONTENT FOCUS                                                                                 | KPI SIGNALS                                                             |
|-----------|--------------------------------------------------------------|-----------------------------------------------------------------------------------------------|-------------------------------------------------------------------------|
| LinkedIn  | Thought leadership, credibility, demand enablement, lead-gen | EGC, executive POVs, industry insights, educational carousels                                 | Reposts, engagements, web sessions, lead-gen (downloads, signups, etc.) |
| Instagram | Brand affinity, reach, culture, engagement                   | Memes/relatable content, light education, short-form video, company culture & client advocacy | Reach, engagement rate, shares                                          |
| Facebook  | Community, reach, light demand support                       | Company culture & client advocacy, light education                                            | Reactions, video views                                                  |
| X         | Conversation, POV testing, cultural relevance,               | Hot takes, microblogs, commentary on industry trends, short company updates                   | Retweets, engagements                                                   |
| YouTube   | Authority, education, discoverability                        | Short-form explainers, webinar clips, podcast/video series                                    | Video views, subscribers, likes/comments                                |

## 05

## Guardrails

This prevents chaos when programs overlap. It will also set guidelines for what we can post to our social channels for less internal conflict

2026 Social Media Strategy

# POSTING AND CONTENT GUARDRAILS

 This protects brand trust and engagement as well as the strategy

- No more than 2 posts can be hard CTA in a week/be heavily sales focused
- At least 3 thought leadership posts must occur a month
- At least 3 human/relatable post per month
- Programs must not exceed 40% of total monthly output
- Every program post must still sound native to each platform
- Any complaints about a social post must have a solid reason behind it. "I don't think it fits" is not enough
- Any content about upcoming events or things an SLT/ELT wants advertised on social must be communicated 2 weeks before the beginning of next month
  - Any requested social post must include a purpose, target audience, and goal
- Please allow 2 business days for awards/nominations to be posted to socials

# 06

## In Practice

What does this actually look like?

2026 Social Media Strategy

# THE STRATEGY IN PRACTICE

Let's say we are doing a whole client advocacy program in Q2

 **You don't just create a "client advocacy strategy"**

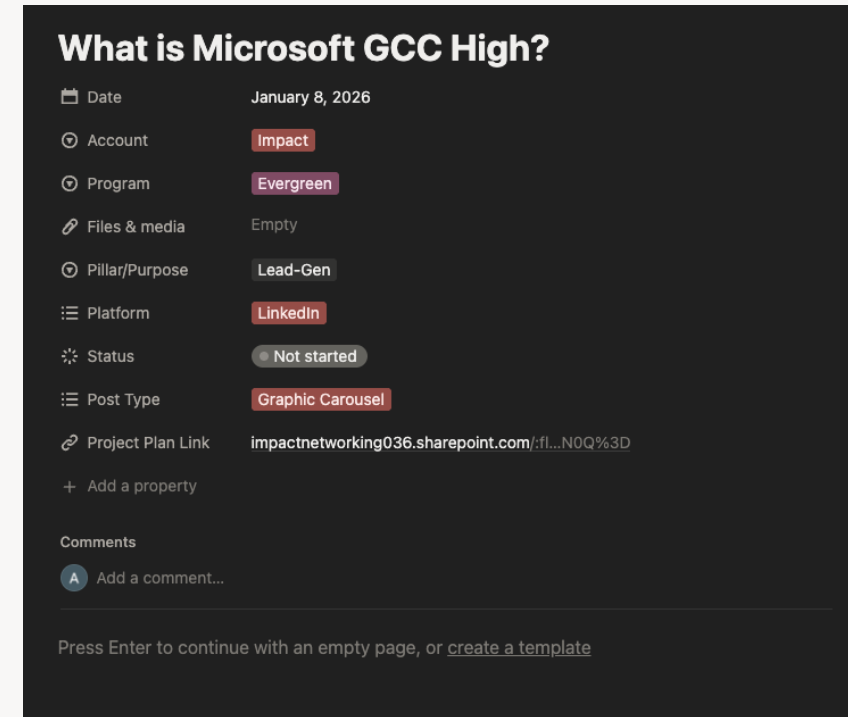

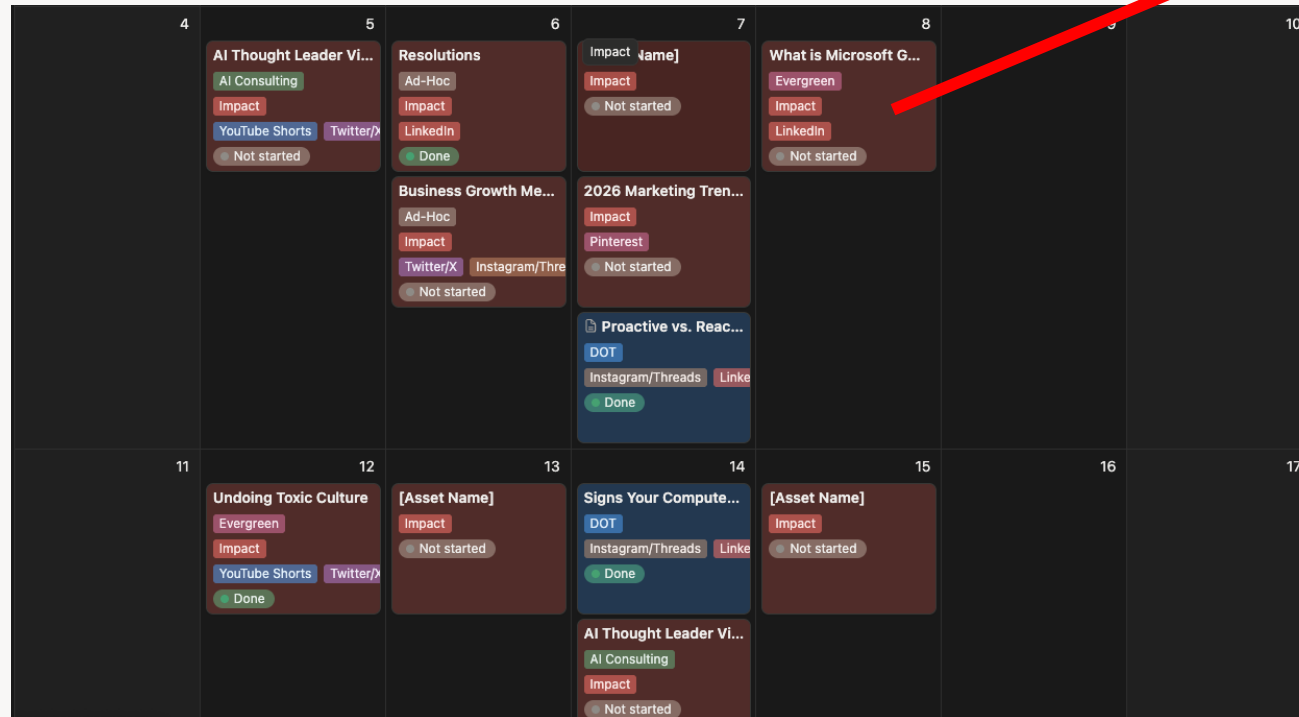

## ○ WHAT'S THE INPUT?

- We want to focus on a specific case study
  - Plug the case study into educate + advocacy
- Use existing formats:
  - 1 carousel
  - 1 short-form clip
  - 1 POV post
  - 1 quote graphic
- All planned monthly content is still running

## ○ WHAT'S THE RESULT?

- Programs feel intentional
- Feed doesn't feel salesy
- Less burnout from a reinvented strategy
