Target Audience

Targeting on organic social is nearly impossible. There is no clear way to exactly target, but there are ways to speak to target audiences. Know that not every post will exactly hit the target audience, but also outside.

We're speaking to decision-makers (and those who influence them) by making content that is valuable, digestible, and relevant that others feel compelled to pass along. Our posts aim to become the slide shared in a morning meeting, the insight saved for later, or a topic of lunch conversations.

Goals and Objectives:

Clear goals for each post or campaign, including metrics for success.

Annual	Quarter	Campaign	LinkedIn
1	Grow total followers by 17%	Obtain 4,000 web sessions 2,000 from boosting	Garner a total of 50 web sessions
2	Grow video views by 3%	Encourage 60 shares on thought leadership content	Obtain a total of at least 5 Tier 1 sessions
3	Grow shares by 3%	Obtain 200 engagements on thought leadership content	Have a total of 20 shares by the end of the campaign
4	Grow web sessions by 10% (up to 9,195)	Garner 65 webinar/LNL subs	Increase positive sentiment on LinkedIn and Instagram
5	Increase overall engagement by 10%	Have at least 30 ppl sub to blog	
6		Obtain a total of 65,000 video views	
7		Encourage 350 shares

1	Tue, Sep 2, 2025	Advocacy	Instagram	Good leadership isn't about having all the answers. It's about being willing to ask better questions. We're big believers in learning by doing. So, when our managers across offices come together for hands-on training, it's all about growing stronger together. Tag a manager who embodies a great leader! First comment: See how we invest in ongoing learning at the link in our bio.  

2	Tue, Sep 2, 2025	Advocacy	Facebook	Leadership is an ongoing process of learning, listening, and adapting. That's why we save time for development at every level of our organization. Recently, managers and leaders from different Impact offices came together for a few days of hands-on training, an opportunity to connect, share challenges, and strengthen the way we lead. Here's a glimpse into how we're continuing to learn and grow together: https://www.impactmybiz.com/careers/learning-and-development/ Tag a manager who embodies a great leader! #Leadership #BusinessGrowth #ManagerTips

1	Tue, Sep 9, 2025	Thought-Leadership	Facebook	At the end of April and into May, Newark Liberty International Airport (EWR) faced one of the worst air travel meltdowns in recent years. 🙄 On April 28th, air traffic controllers lost radar and communication for 90 seconds. 😬 That may not sound long, but in aviation, it's an eternity. The failure raised serious concerns about outdated FAA infrastructure. Passengers were stuck with missed connections, hours-long delays, and extended tarmac waits. Don't neglect your outdated technology, learn from EWR and check this out 👉 https://www.impactmybiz.com/digital-transformation/ #DigitalTransformation #TechStack #Transportation

1	Mon, Aug 4, 2025	Thought-Leadership	LinkedIn	For executive leaders, the pressure to innovate is constant. AI, automation, new platforms, there's always something promising to solve everything! 🤖 But real transformation doesn't start with tools. It starts with thinking differently. That's where Thought Architecture comes in as the discipline of designing how we think about problems before jumping into solutions. 🧠🔧 It's what helps organizations separate what's shiny from what's strategic, and build systems that support growth, not just activity. If your innovation feels disconnected from outcomes, maybe it's not a tech problem. Maybe it's time to reframe the questions. For more conversations that challenge how we think about innovation, follow us here on LinkedIn! #ThoughtArchitecture #BusinessGrowth #AllInnovation

1	Tue, Sep 9, 2025	Thought-Leadership	LinkedIn	At the end of April and into May, Newark Liberty International Airport (EWR) faced one of the worst air travel meltdowns in recent years. 🤯 A few aspects are to blame: ▼ Air traffic control staffing shortages 🗺️ ▼ Runway construction 🚧 ▼ Outdated technology 📅 🙄 How bad was it? On April 28th, air traffic controllers lost radar and communication for 90 seconds. 🙄 That may not sound long, but in aviation, it's an eternity. The failure raised serious concerns about outdated FAA infrastructure. Even United Airlines told passengers to fly to a different airport and offered refunds for canceled trips. Since then, United has canceled around 10% of their daily flights into and out of EWR. ✈️ Passengers were stuck with missed connections, hours-long delays, and extended tarmac waits. 💡 Lesson learned: Outdated tech doesn't just slow things down, it creates costly, chaotic consequences for both operations and customers. Don't neglect your outdated technology,

- Growth-minded leaders face a constant challenge: how do you prioritize innovation when you're pressured to deliver results right away?
- The most impactful strategies don't always come from chasing what's new. They come from identifying what's useful, solutions rooted in real customer needs, brought to life by teams who are aligned, empowered, and clear on the problem they're solving. 🧠💡
- In today's market, the organizations that win aren't always the ones with the newest, shiniest tech, but the ones who know how to use it with purpose and empower their teams.
- Why do you think innovation is important? How are you using innovation to drive actionable results? Let us know in the comments below. 📌

We asked leaders to anonymously share the wildest thing they've ever approved and let's just say, the responses didn't disappoint. But not every decision ends in a funny story. Some lead to billion-dollar losses, broken trust, or full-on brand collapse. We're giving you insights on businesses who thought they had a situation in the bag but ended up dropping it all. It'll have you saying, "who signed off on this?" Check back September 9th to see what we have up our sleeve. 🙊
